About Corner Brook

Corner Brook, the garden city and hub of enriched history is located on the western shores of Newfoundland, at the mouth of the Bay of Islands. With a spectacular combination of ocean and mountain scenery, four seasons, and friendly people, Corner Brook is known around the world as both a popular tourist attraction and one of the best places to live, work, and do business.

There is plenty of local shopping and restaurants in the city. Corner Brook is also known for its outdoor facilities, such as Marble Mountain Ski Resort.

All this in the friendliest climate in Canada, surrounded by some of the most beautiful wilderness in the world.

Our four season destination has so much to offer for both the business and leisure traveler that you will soon be planning your return visit. Our City and area is just brimming with history and culture and our outdoor activities offer an exceptional experience for both the beginner and avid outdoor enthusiast. Read on, enjoy our City, and make memories as you stay in this explorer’s paradise.

The City of Corner Brook is the main service center for the region. The city boasts three post-secondary education campuses and a wide range of businesses.

Climate

Summers are comfortably warm and ideal for outdoor activities such as hiking, mountain biking, or sea kayaking. Fall brings cooler temperatures and vibrant autumn colours, which are in their prime around mid-October. Winters are mild and snowy. Activities like alpine and cross country skiing, snowmobiling, and snowshoeing start in mid-December and continue until mid-April.

History

For thousands of years, people have lived and worked along the shores of the Bay of Islands and in the Humber River valley, taking advantage of the abundant resources and access to water for transportation. First the Maritime Archaic people came, followed by the Beothuck people.

In 1767, James Cook, the famous British cartographer and explorer, was the first to survey and record the geography of the Bay of Islands. The Captain James Cook Monument stands as testament to a proud chapter in his exploratory career.

By the middle of the 19th century the population of Corner Brook was less than 100. As the population of the area grew, the economic base began to diversify.
It was the construction of the pulp and paper mill between 1923 and 1925 that triggered the transformation of Corner Brook from a small but bustling sawmill centre into the largest industrial city in Western Newfoundland.

**Downtown Corner Brook**

Be sure to visit downtown! Downtown Corner Brook has 3 kilometres of beautiful red interlocking brick sidewalks, heritage lights and lots of greenery to make your experience a memorable one!

West Street offers everything from professional services such as doctors, lawyers, dentists to boutiques, pubs, restaurants and more.

Broadway was the first shopping district in Corner Brook. Many of the businesses are located in retail outlets that were built in the 1930’s and offers the unique experience of shopping in family owned businesses as in years gone by.

**Corner Brook, Bay of Islands & Humber Valley Region**

Trans-Canada Highway, East of Corner Brook, the mighty Humber River is known as one of North America’s best Atlantic salmon rivers. Salmon anglers from all over the world travel here to take advantage of the slow deep steadies to cast for the champion Atlantic salmon. Out of Province visitors require a fishing license and a licensed guide.

Town of Massey Drive began as a cabin and farming area that has grown into a vibrant community of 1,700 residents. It has become one of the fastest growing communities in Western Newfoundland.

Overlooking the Bay of Islands and the City of Corner Brook, the town of Massey Drive has become a very popular residential area for both young and old, and many outdoor enthusiasts who make their home here.

The availability of hiking and snowmobile trails, snowshoeing, swimming at Tippings Pond, fishing, hunting, kayaking & canoeing are just a few activities that are available in the area. Enjoy downhill skiing and zip-lining that are only minutes away at Marble Mountain in the nearby town of Steady Brook. Close proximity to the City of Corner Brook also allows residents easy access to schools, hospital, shopping malls & indoor recreation facilities.

The Town of Steady Brook is a picturesque community surrounded by beautiful mountains with the Humber River flowing through its heart. The Town is a beautiful community with quiet streets and wonderful gardens. Our residents care about the
natural beauty of the area, while flowers, gardens and fruit trees provide a picturesque stroll on a warm summer evening. Steady Brook is proud of its heritage and history.

Enjoy a stroll through the Town, summer or winter. The summer is alive with flowers and trees, the fall shows its wonderful colours, and the winter is filled with activities like snowmobiling, snowshoeing, skiing and snowboarding at Marble Mountain. The captivating beauty and closeness to nature will attract and spellbind anyone who enters its boundaries.

Fall in the Humber Valley is spectacular. Vibrant autumn colours appear in mid-September as thousands of leaves turn brilliant shades of red, orange, and gold. Colours are in their prime around mid-October. The Humber Valley is also a good place to make roadside purchases of fresh fruit and vegetables in season.

Blow-Me-Down Mountains
Hiking the Southhead Lighthouse Trail
This is another fine trail that the Outer Bay of Islands Enhancement Committee (OBIEC) has just created. It is accessed by the Bottle Cove parking lot and provides fine vistas of not only the rugged shoreline of Little Port Head and Bottle Cove but also the scenic islands of the Outer Bay of Islands. The trail is about 3.5 km one way and climbs steeply in one section. There is a waterfall along a side trail that is worth a look especially after a heavy rain. The trail is well marked and ends at an overview of Weebal and the other islands that mark the entrance to the Bay of Islands.

Copper Mine Cape, York Harbour
This new trail is a standout. It ascends 650 meters to the top of Blow me down Mountain which is uniquely positioned to offer superb views of much of the Bay of Islands. It has been created as part of the new Appalachian Trail in Newfoundland. This 7.5 km long trail is perhaps one of the finest on the island given the vistas it offers of headlands, bays, islands and mountains. The trail winds through the woods before gradually climbing above treeline. Expect strong winds in this area in all seasons.

Bottle Cove Trails
Bottle Cove is located near the end Highway 450 which winds along the south shore of the Bay of Islands. Allow about 50 minutes of driving from Corner Brook. This area has some of the finest coastal scenery in the province. These trails are all short and are suited to the entire family. If you are there at sunset be sure to hike to “sunset rock” to take in the view. Also if you are there on a sunny warm day you can dip into the cool water of Bottle Cove from a long sandy beach. Recently the OBIEC has created a series of well-marked and sign posted trails that leave from the parking lot located overlooking Bottle Cove.
Cedar Cove Trail
The Cedar Cove trail is a short one (1.8 km) that will appeal to a wide range of hikers. It is short and fairly level and ends at Cedar Cove (also known as Wild and Caplin Cove). The large raised terrace makes for fine lunch spot with views looking out into the Gulf of St. Lawrence. You can make a fire on the beach since the piles of drift wood are astounding. You can also connect to the Little Port Head trail if you want a longer hike. To reach the trailhead drive to Little Port (end of the South Shore Highway) and look for the large signs at the end of the parking lot.
