MEMORANDUM

To: MANAGER OF DEVELOPMENT & PLANNING
From: DEVELOPMENT INSPECTOR I
Subject: **Crown Land Application – Route 440 – North Shore Highway**
Date: November 15, 2021

The City of Corner Brook has received an application for crown land off of Route 440 – North Shore Highway

The applicant is requesting to obtain a portion of crown land as outlined on the attached drawing (Figure 2) for the purpose of utilizing the land for animal and agricultural use (housing laying hens and growing root crops). The requested land is located in a Rural Zone where an agriculture classification of use is a "Permitted Use" and an animal classification of use (which permits laying hens) is a "Discretionary Use" of the City of Corner Brook Development Regulations.

During the referral process to internal City departments (Planning Dept., Fire Dept., Engineering Dept. & Land Management Dept.), a number of valid concerns were identified. One main concern was that the setback of the operation as well as any access to the property be approved by the province of Newfoundland and Labrador. Also, another concern was that washroom facilities are provided onsite for any workers. Finally, it was also mentioned that there may be an ATV path being constructed in the area in the future. Other than these items, there were no other concerns.

This matter was considered at the October 18, 2021 meeting of Corner Brook City Council in which further information was requested. After discussion with the applicant, a new map was submitted (Figure 1) that shows where they plan to put their buildings. It is requested that a chicken barn be constructed in the first year of operation and a cold storage building which will be constructed afterward, around the third year of operation. The applicant has also contacted an Agricultural Development Officer with the provincial government and was told that they don't think snowmobile & ATV traffic will bother the laying hens but it was recommended by them to put gates at the entrance to the fields to keep snowmobiles off of them. The applicant also included a soils map which outlines suitable agriculture land.

In light of the above and in consideration of the newly submitted information, it is recommended that Council approve the application for the above noted request subject to the applicant complying with the City of Corner Brook Development Regulations, the setback and access off of Route 440 being approved by the government of Newfoundland and Labrador and washroom facilities being provided onsite. Also, the City would request that the corridor highlighted on Figure 1 is reserved for a future ATV/snowmobile route. Please note that this corridor would also serve as primary property access. If approved, the approval would not absolve the applicant from its obligations to comply with all by-laws, codes and regulations or of the obligation to apply for building and all required permits in carrying out any work associated with the development.

Memo

To: Deon Rumbolt, Manager of Development and Planning

From: Darryl Skinner, Development Inspector III

Date: November 16, 2021

Re: Discretionary Use (Apartment Building) / 14 Balsam Avenue

The City of Corner Brook has received an application regarding the construction of a 12 unit, 2 story apartment building located at 14 Balsam Avenue, Corner Brook, NL. The lot is located in the Residential Medium Density Zone where the proposed use, (Apartment Building) is considered a “**Discretionary Use**” of the City of Corner Brook’s Development Regulations.

The application was advertised to the public by means of the Western Star, City of Corner Brook’s Website and “Notice to Occupant” letters was sent to residents in the neighborhood. Also city council & staff met with the residents & applicant on October 25th to discuss the concerns with the proposed development.

The city did receive several concerns and two petitions, (50 signatures) from the public regarding the proposed development. Below is a list of the concerns submitted?

1. More than enough traffic on Pinegrove Avenue currently and this development will add to it.
2. Vehicles currently speed on Pinegrove Avenue.
3. The width off Pinegrove and Balsam Avenue is narrow.
4. Vehicles have trouble passing on Balsam Avenue.
5. 90 degree turn on Balsam is dangerous.
6. Vehicles continue to park on the street causing issues for passing.
7. Reduced property value.
8. Snow clearing is an issue on Balsam Avenue and therefore more traffic as potential for more accidents.
9. Impact on existing sewer services may cause sewer back-ups.

The city’s engineering department evaluated the proposed development and recommends approval subject to the conditions listed below,

1. Engineered site plan to include extra off-street parking and snow storage area.
2. Adequate water for fire protection. i.e. fire flow test.
3. A fence to be constructed adjacent to civic # 16 Balsam Avenue to aid in privacy from the access to the rear parking lot of the proposed apartment building.
4. Balsam Avenue to become no parking on one side of street prior to the building being occupied.

Staff did speak with the applicant regarding items 1, 2 & 3 above and he has no issue with complying with the conditions. The applicant also indicated that snow will be removed from the lot in the event it is required.

14 Balsam Avenue

Proposed 12 Unit apartment Building

The city’s engineering department also placed a traffic counter in the neighborhood to determine traffic volumes and speeds. The results indicate that the existing and projected traffic volumes are well within the range of a local residential street. The existing speeds are also below the posted limits.

After reviewing the proposed application and staff does not feel a 12 unit Apartment Building at this location would have e a negative impact on the neighborhood. Therefore it is recommended that Council approve the application for the proposed use, “Apartment Building” at 14 Balsam Avenue, Corner Brook, NL.

Sincerely,

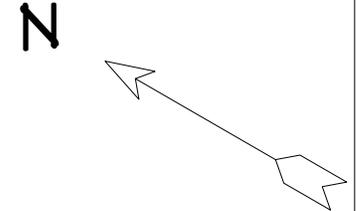

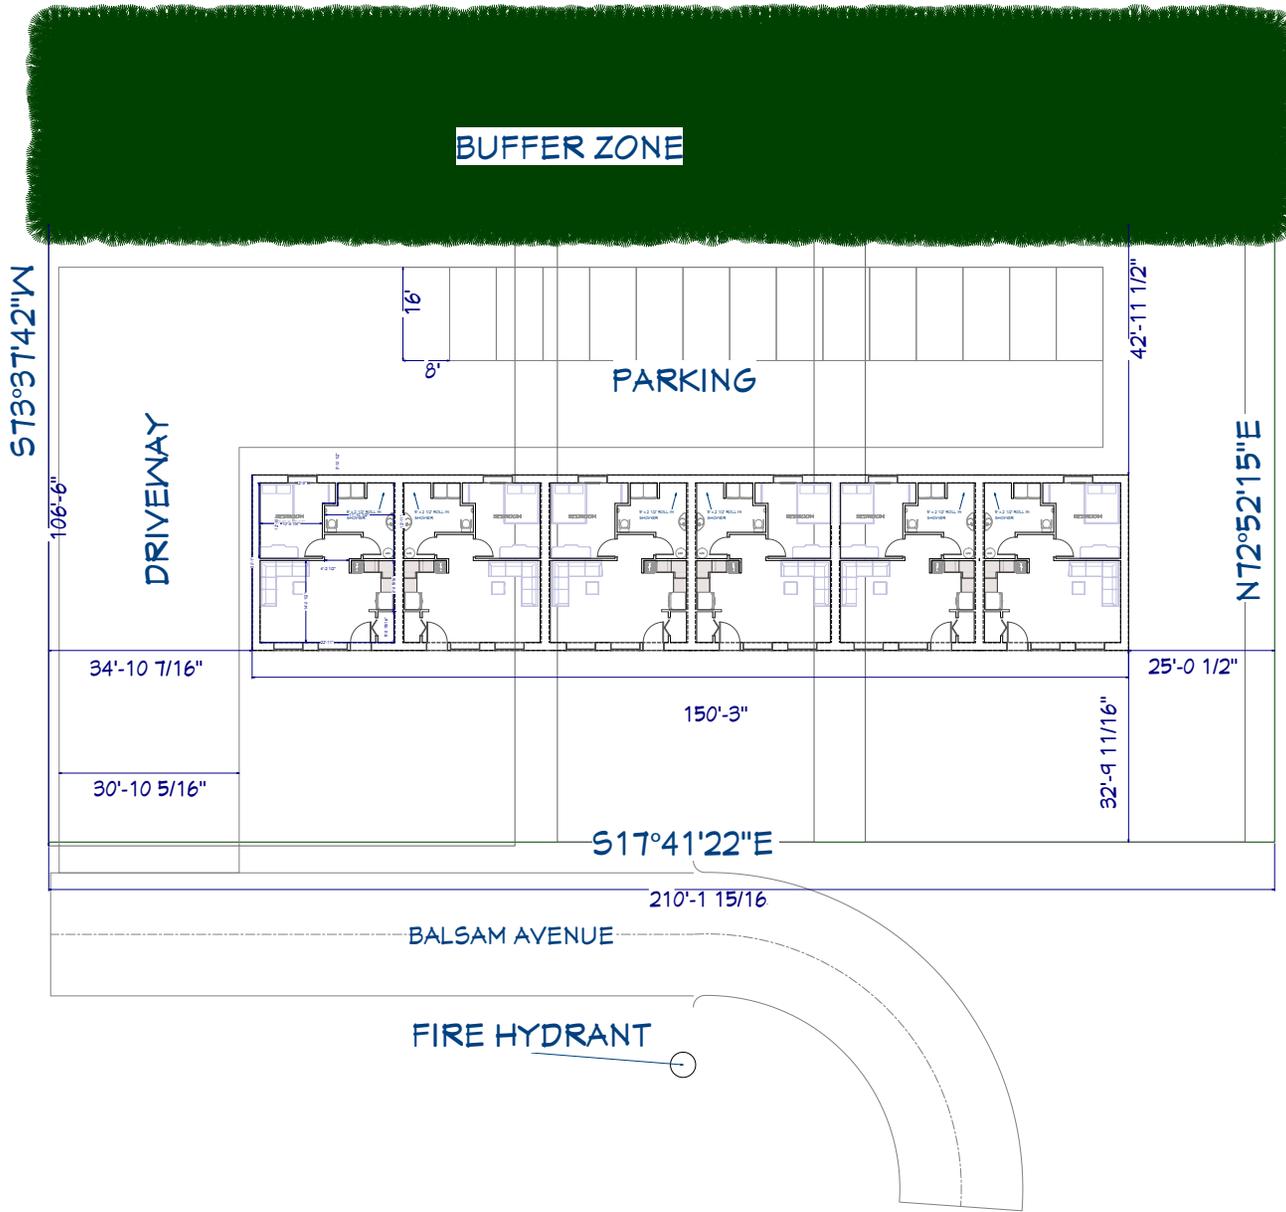

Darryl Skinner
